Sir:

In response to the Notice dated April 12, 2005 it is noted that the drawings filed are correct and that page 10 of the specification contains an error in that Fig. 32e should be 32d. This error can be corrected when responding to an Office Action from the examiner.

The Notice dated April 12, 2005 requesting "Replacement drawings" was issued improperly because correct drawings were on file, and an error in the specification is not an appropriate basis for such a Notice.

Accordingly, this RESPONSE, although filed after the due date established by the Notice of April 12, 2005, should not require an extension of time fee because the Notice was issued in error. nevertheless, if such a fee is required it should be charged to Deposit Account No. 02-0200, and the undersigned notified.

Respectfully submitted,

  
Felix J. D'Ambrosio
